2022 | Contract Talent

Welcome

The Robert Half 401(k) Plan makes it easy to save and invest for retirement. You contribute to the 401(k) Plan right from your paycheck, so you get to save some of your money before you have the chance to spend it. This brochure contains key details about how your 401(k) Plan works. Read on to learn more.

When you can enroll

Enroll in the 401(k) at any time.

There is no waiting period to enroll in the 401(k) Plan. In general, you are eligible if you are a Robert Half Contract Talent Employee and your Robert Half earnings in the prior calendar year are equal to or less than the annual IRS compensation limit for determining “highly compensated employees” (\$130,000 in 2021).

Please read [page 3](#) for details.

Facts about participation

Participating in the 401(k) Plan lets you invest some of what you earn today to help fund your dreams for tomorrow.

Benefits

Tax savings now

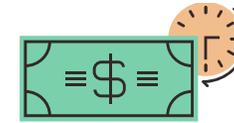

Your pretax contributions are deducted from your pay *before* income taxes are taken out. This means you can actually lower the amount of current income taxes you pay each period—and it could cost you less to save than it would if you saved in a taxable savings account. Please note, however, that Social Security and Medicare taxes, as well as state disability insurance, are withheld from your contributions.

What's more, you pay no taxes on any of your investment earnings until you withdraw them from your 401(k) Plan account. As a result, you can keep more of your money working for your future.

Portability

Your 401(k) Plan account is yours to keep. If you decide to leave Robert Half, you generally can roll over your vested account balance to another employer's retirement plan or to an Individual Retirement Account (IRA).

Convenience

Your contributions come out of your paycheck automatically.

Easy ways to invest

The 401(k) Plan makes it easy to invest. You can choose one or more investments on your own, or direct your entire account to a Fidelity Freedom® Blend Fund – Class K based on the year you expect to retire. Or, for a fee, try Fidelity® Personalized Planning & Advice and hand over the day-to-day investment decisions to professionals at Fidelity. **Please see [pages 7 – 9](#) for more details.**

Considerations

“Highly compensated employees” are not eligible

At Robert Half, your compensation in the prior calendar year is one of the key factors in determining whether you are eligible to participate in the 401(k) Plan.

As an employee, you are eligible to contribute to the 401(k) Plan if your Robert Half compensation for the prior calendar year was less than the amount set by the IRS in its definition of a “highly compensated employee.” For 2022, a “highly compensated employee” is a person who earned more than \$130,000 in 2021. This means that you are eligible to contribute to the 401(k) Plan in 2022 if you earned \$130,000 or less from Robert Half in 2021.

As long as your annual Robert Half compensation remains below the “highly compensated employee” limit, you will be eligible to contribute to the 401(k) Plan in the following year (subject to your continued employment). Eligibility is determined on a year-by-year basis and may fluctuate.

Market fluctuations

All investing involves some risk, regardless of the state of the economy, and no investment is protected completely from loss. When you choose investments, take into account how much risk you can tolerate.
